

# BRABUS SHADOW 900

ALSO FEATURING BLACK OPS LIMITED EDITION '1 OF 37'

## REDEFINING LUXURY DAY BOATING

BRABUS Marine is the result of the cutting-edge alliance between two of the most renowned companies in their respective genres. Bringing together the award-winning Finnish boat builder Axopar Boats and the long-established, high-performance luxury automotive car producer BRABUS, to redefine luxury day boating through a range of ultra-exclusive and exciting powerboats. BRABUS Marine focuses upon luxury products for global markets with strong ambitions to become one of the world's most iconic boat brands.

## BRABUS SHADOW

### THE INDIVIDUALIST'S RANGE OF YACHTS WITH AN AUTOMOTIVE BLOODLINE

Outstanding performance, power and superior acceleration, together with easy handling and best in class drivability, forms the core of a BRABUS Shadow product. On top of this, every BRABUS Shadow has an instantly recognizable charisma and strikingly gorgeous looks.

All boats within the range are painstakingly hand crafted to the highest possible standards by skilled technicians utilizing the finest materials, newest technologies and bespoke engineering. Revel in the excitement of getting back behind the wheel, feeling the power and enjoying the unrivalled thrill of these well-mannered, super-fast and easy-handling boats. The BRABUS Shadow range is designed for a select group of boat owners who want

to enjoy the very best exclusive boating experience for absolute individualism, ultimate luxury and seriously impressive power and performance.

Adopting the identical philosophy of BRABUS supercars, whereby a premium car, as the Mercedes-AMG range is utilised as a platform from which BRABUS build their supercars, we transform and redefine a selective range of Axopar boats into BRABUS Shadow superboats.

## '1 OF 37' LIMITED EDITION BRABUS SHADOW 900 SPYDER BLACK OPS

Following 40 years of history & heritage laid down by BRABUS, we always celebrate the launch of a new BRABUS Shadow model with a Limited-Edition 'Black-Ops series'. All models are exclusively finished in the renowned signature paint scheme Gunmetal Grey, combined with vibrant BRABUS Red exterior seating; the most striking combination for a Black Ops Limited Edition.

The BRABUS Shadow 900 Black-Ops '1 of 37' is hand-built with focus on precision and finish. Just the fairing, painting and polishing of the Limited-Edition version to the quality required is a highly labour-intensive, skilful and painstaking process, with no automation process, that can take up to six weeks alone to reach the required finish.

Advanced design engineering and the use of high-tech, selective materials incur a superior level and lengthier period of manufacturing. As a result, every owner of a new Shadow will experience a far higher, superior level of individual touch and performance, uncommon for a boat in this size-range.

BRABUS SHADOW 900 SUN-TOP BLACK OPS

## NEW FLAGSHIP OF THE BRABUS SHADOW RANGE

Extravagant, hedonistic and brilliant, welcome the new flagship of the BRABUS Shadow range. Packed with technical innovation and blistering performance at heart, we proudly present the new BRABUS Shadow 900 Spyder, in full-open version, for pure, unadulterated driving pleasure and the new BRABUS Shadow 900 Sun-Top, the comfortable passage maker.

Owners can now expect even more speed than before, blistering 60+ knots performance from the all-new and ultra-efficient hull combined with Mercury Marine's latest, 450R Verado XL 4,6 liter V8 FourStroke engines, hence the Shadow 900 name. These 'beefy' new powerhouses, in dual-rig configuration and joystick control, offers vastly improved performance and best-in-class drivability.

Never seen before technical and concept innovations – as for example the Gullwing doors for the front lounge providing better access and interaction between indoors and outdoors.

## A NEW LUXURIOUS AND COMFORTABLE LOUNGE

Swathed in 'sport-pattern', cool grey and black BRABUS Fine Leather® and Dinamica with contrasting red accents and stitching, the front cabin with a 'queen size' sleeping accommodation has a sense of space and luxury more associated with a supremely comfortable lounge. Extend the lounge experience with an optional integrated infotainment unit, comprising a 42-inch flat screen 4K TV and Apple TV connectivity to mention a few of the options available.

**White Grey**

## BRABUS SHADOW 900 SPYDER

The open-air thrill-seekers, built with obsessive attention to details, the Shadow 900's offers adrenaline-fueled excitement, superior performance, acceleration and torque, providing an ultimate luxurious driving experience.

Take pleasure in customizing your boat by selecting one of three available gelcoat colours for your Shadow 900, and let your boat truly express your personality. Choose from our modern and contemporary colours; Platinum Grey, White Grey or Glacier Blue and finish your customization by selecting one of the two available vibrant fabric colours; BRABUS Red or BRABUS Cappuccino.

# WHY WE CALL IT AN EPIC EVOLUTION

## CLASS-LEADING DRIVING EXPERIENCE

Pre-eminent amongst the myriad of changes on the new Shadow 900's is a complete evolution of the hull and its hydrodynamics. Hours of R&D, CFD test-data analyses, hull visualisations and, of course, physical sea-trials have been poured into these distinctive and assertive new creations.

The result of this exhaustive process is increased performance and top speed of over +10 knots, lowered fuel consumption, and flexible cruising speed-range in comfortable speeds of 30-40 knots and up to blistering 50 knots cruising speeds for those seeking thrills as well as fast and safe passage.

## BLISTERING 60+ KNOTS PERFORMANCE

The Shadow 900 range benefits from Mercury Marine's latest dual 450R Verado XL 4.6 litre V8 FourStroke engines with Joystick Piloting for easy docking and manoeuvring.

At just 320 kg a piece these masterpieces of technology weigh some 135kg less than their nearest competitor and have 40 per-cent more torque than their 400hp equivalent, the perfect engines for the Shadow 900's. The power to weight ratio for each engine is best in class, improving hole-shot acceleration and create the renowned driving experience of a Shadow 900.

## THE DRIVER IN FOCUS

Introducing an all new, clean and ergonomic helm, with full glass bridge InformationDisplay based upon two 12-inch screens with a BRABUS User-Interface offering a selection of driver-orientated sport modes. Improved forward and overall visibility, whether standing or seated.

The helm resembles a supercar more than anything else. Everything on the dashboard is close to hand, touchscreen technology with selected backlit switches and the newly developed multifunction steering wheel with finger-tip controls, make this one of the most modern looking consoles.

## ELEVATING THE ONBOARD EXPERIENCE

Better utilization of space includes new multi-storage solutions for adventure gear, a larger foredeck and more versatile social areas, with improved freedom of movement all around the boat. Below deck there's a significant enlarged front lounge, with Gullwing doors and also available with an optional enclosed toilet compartment.

## STREAMLINED APPEARANCE WITH BOLD AND DISTINCTIVE LOOKS

With a bold, confident and authoritative stance, this amazing and dynamic 37ft footer is a completely new and even better-looking incarnation of its much-admired predecessor for you to arrive in style in whatever part of the world you are.

## THE PERFECT TENDER OR REGATTA CHASE BOAT

Perfect for owners of larger yachts or anyone longing to get back behind the wheel and take-off by themselves or bringing on their families and quests for an adventure of their own. The Shadow 900's are built to re-ignite the passion for driving a boat even with no need for a crew onboard!

As a first-class superyacht tender, or regatta chase boat, creating the right first impression for clients and VIP's is important and few boats can match the visual drama and sense of excitement offered by a BRABUS Shadow 900.

Safely transiting passengers from ship-to-shore, whatever the weather, even in arduous sea conditions. The low freeboard means it's easy to step on board and with the optional boarding steps at the stern makes transferring people from boat to boat safe and comfortable. The shallow draft and outboards enable access to all kinds of places that larger yachts cannot reach, enabling owners to discover hidden bays and idyllic remote anchorages.

# STANDARD EQUIPMENT HIGHLIGHTS

## REDEFINING LUXURY DAY BOATING

BRABUS Marine; the cutting-edge alliance forged between Axopar Boats, the world's most talked about day-boat/sports-weekender range, and BRABUS, one of the world's leading high-performance supercar producers.

Where Scandinavian design meets German engineering, BRABUS Marine is devoted to building and developing ultra-exclusive, supremely exciting boats; the result of two companies united in the extreme.

[brabusmarine.com](http://brabusmarine.com)
